Lab Analysis Price List October 2020

Soil Analysis

Single Depth – Irrigated & Dryland Fields, Garden, Lawn, or Orchard **\$50**

Standard soil analysis includes Plant Available Water (PAW), Organic matter (OM), Nitrates (NO₃-N), Phosphorus, Potassium, Sulfur, pH, Salt Hazard, Sodium, Calcium, Magnesium, CEC, Lime and Texture. We also test and recommend for Zinc, Iron, Manganese, Boron and Copper.
Fertility recommendation included.

Two Depth Soil Sample Analysis **\$60**

This includes standard analysis on top depth plus PAW, NO₃, Sulfur, pH, salt hazard, Lime and Texture on second depth.

**Soil sampling,
GPS mapping and
sampling, crop
scouting, and
other consulting
services are
available.**

**Contact us for pricing
and scheduling.**

Water Analysis

Irrigation suitability **\$40**

This includes pH, Salt, Total Dissolved Solids (TDS), Calcium, Magnesium, and Sodium.

Livestock suitability **\$40**

This includes pH, Salt, Total Dissolved Solids (TDS), Nitrogen, and Sulfate.

Feed Analysis

Feed Nitrates **\$27**

NIR –Feed Value **\$27**

NIR Analysis includes Moisture, Crude Protein, Fiber, TDN, Energies, Relative Feed Value, Calcium, Phosphorus, Potassium, and Magnesium.

Corn Silage Moisture **\$20**

Wet chemistry analysis is available by request.
